## CAREER SUMMARY

I have been working in IT as Tech Support since August 2018. I have had the privilege to work on a wide range of projects which have enabled me to develop my problem-solving skills. Most notable and transferrable to a career as a developer are my skills in networking, web security, scripting, server management and cloud infrastructure.

However, programming is my true passion. During these 4 years, I have built several projects in my spare time using different tech stacks, studied extensively all the facets that make a good developer, from a solid understanding of design patterns and clean architecture, to industry best practices.

## SKILLS & TOOLS

| Backend | Frontend | Others |
|---|---|---|
| C#/.NET Core | JavaScript/TypeScript | Git |
| Node.js | React | Docker |
| Python | Redux | AWS |
| Elasticsearch | Angular | Database Design |
| PostgreSQL/MySQL | Webpack | SOLID Principles |
| Entity Framework Core | HTML/CSS/SASS/LESS | |

## WORK EXPERIENCE

### IT Tech Support
**DSM Systems**

Aug 2018 - Present

DSM Systems is an IT Support company based in Chippenham, Wiltshire.

**Responsibilities:**

- Ensure the smooth running of services on local and cloud servers, backup systems, networking equipment.
- Ensure systems are patched up quickly after security threats are discovered.
- Deal with client queries and issues over the phone and using a ticketing system.
- Write scripts to automate frequent tasks.
- Manage users, company data, security, using Office 365 and Azure.
- Spin up and configure Lightsail/EC2 instances in AWS as and when required.
- Configure and maintain workstations (software updates, manage security threats).

### Business Information Administrator
**Vallis Group**

Jan 2017 - Jul 2018

Vallis Group is a logistics company operating in Africa and the Middle East with the Head Office in Frome, Somerset.

**Responsibilities:**

- Analysed and collated company data using Excel. Presented the information in formatted pivot tables for senior management and marketing purposes.
- Organised company information using MS SharePoint.
- Provided in-house IT Support to colleagues and troubleshooted IT issues before escalating with the relevant service providers.
- Updated the content on the company's WordPress website.
- Wrote and maintained the accuracy of company brochures, newsletters and presentations
